

PLAS TECH

Industrial Maintenance Contractors Since 1988

Mission Statement

PLAS^TECH SERVICES, INC. is committed to providing our customers with the highest quality materials and professionalism in our industry. As industrial maintenance contractors, we strive to furnish services in the industrial arena that is unparalleled by anyone. Our objective is to complete the projects entrusted to us on time, within budget, and with the highest professional standards.

We started our mission in October of 1988, and have continued to expand and improve our service to include over forty field service employees, a fleet of twelve service vehicles, and are operating from our new modern 20,000 square foot facility. As we continue to grow and expand our capabilities, it is our commitment to our customers that we will continually train our field personnel to stay in touch with the latest materials and technologies available in the market place.

We look forward to serving our most valuable asset –
You, Our Customer!
